

Backyard Huaka'i

Huaka'i means trip in Hawaiian language. Let's take a huaka'i to your yard together!

Welcome scientists and brave explorers! What wonders can you discover in your yard, or area around your home? Complete one station each day and record what you found and where you found it. **Challenge:** Every day start at where you found the answer to station 1 and revisit all the stations until you reach the end!

Station 3

Find something in your yard that is **smooth**.

Draw and label your smooth object.

Station 5

Find something in your yard that is **4 inches long or as wide as your hand**.

What did you find?

Station 6

Find something that is **spotted**, or has dots. Where did you find it? What is it?

Record it!

START HERE

Station 1

Find something in your yard that has the shape of a **circle**. What did you find? Was it a living thing or non-living?

Draw what you found.

Station 2

Find something in your yard that has a **zigzag lines**. The zigzag lines can be **thick OR thin**.

Draw your discovery!

Station 4

What is the **antonym (opposite)** of smooth? HINT: R_____

Find something in your yard that is R_____.

Draw it!!

Station 7

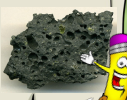

Find something in your yard that is **living**. Remember, a living thing needs air, water, and it grows. **Living things** eat food or make their own food from the sun.

I found a...

Station 8

I am a rock and black as night, lots of holes and very light. What am I?

I am an 'a'a lava rock!

Where did you find it or see it before?

FINISH!
